[A study of serum immunoglobulins by radial immunodiffusion]. The authors have studied the different forms of distribution of serum immunoglobulins in healthy subjects. In addition to the classical distribution due to the presence of IgG1, IgM, IgA and IgA1, there is also a monomeric IgG2 form in which the polyclonal Ig is totally separated from the K fraction. The authors have also studied the effect of various foods or different salt concentrations on this distribution. Y Combinator: Success On a Small Budget - fogus ===== jeremyw This reminded me of one of my favorite books, Imagine... It is about the things you can/should do when you have a few bucks. One thing I like about this, you can see Zed's personal values, perspectives, and skills. If you're in a position where you're making the choice between spending money and investing it, this is a good read... despite YC getting so much publicity. ----- run4yourlives I think Zed had a nice run. But I think he's mostly an inspiration. I haven't seen anyone else write so honestly about the limits of time and money on his blog. For those who want to actually learn something about launching a product, I suggest Zed's book: Launch: A Guide for the Hopeless, Unbounded, and Unguarded. ~~~ kirubakaran Seconded. I've read the book. It's a good read. ~~~ run4yourlives Thanks! I wasn't entirely sure what the book was about, so once I bought it, the title seemed kind of misleading. ----- ComputerGuru "The company began with a single room in a house in the Mission, and no more than \$10,000 in cash" If you're interested in following up on Zed's success, would you consider checking out his next venture? \--- Actually, I kinda kind of have a half-cute (in a "pity me
